

Dear Colleagues,

This is a call for nominations for the 2022 SCOSTEP Awards for Distinguished Scientist and Distinguished Young Scientist.

Recognizing the societal importance of studies in the field of solar-terrestrial physics and willing to give credit to scientists who contribute significantly to these studies and to SCOSTEP activities, the SCOSTEP Bureau has instituted the following awards:

SCOSTEP Distinguished Scientist Award

This award is given to recognize an outstanding contribution of a scientist to solar-terrestrial physics

SCOSTEP Distinguished Young Scientist Award

This award is given to young scientists who have achieved considerable success in solar-terrestrial physics and have taken an active part in SCOSTEP-related activities

SCOSTEP Distinguished Service Award

This award is given to recognize unique contributions to SCOSTEP-related activities, to realization of its programs and events.

The SCOSTEP awards are given biennially. In 2022, SCOSTEP will award Distinguished Scientist and Young Scientist Awards. The next Distinguished Service Award will be made in 2023. The Award Statutes and Procedures are available on the SCOSTEP website: <https://scostep.org/awards/>

Award nomination packages (nomination letters and nominee's curriculum vitae) for the Distinguished Awards should be submitted to the SCOSTEP secretariat (scostep[at]bc.edu) by no later than January 31, 2022, as a single pdf file. The currently serving SCOSTEP Executive Officers and Bureau Members are not eligible for nomination. The award decision will be made by the SCOSTEP Awards Committee (SAC) and communicated to the Bureau after considering submissions.

Sincerely,
Patricia Doherty
SCOSTEP, Scientific Secretary
